Theophostic® Prayer ministry has proven effective with...

Sexual abuse, rejection, false guilt, marital conflict, traumatic memories, post-traumatic stress disorder, addictions, depression, anxiety disorders, eating disorders, children's issues, grief and loss and all lie-based counseling issues.

What is Theophostic® Ministry?

The process simplified:

1. A person's present emotional state is often rooted in what he or she believes. "We feel what we believe."
2. Our core belief system was established during life experiences which is now contained in memory.
3. People are not in emotional pain because of what has happened to them (the past) but rather because of the belief that was established during the life experience. The past cannot be changed but what one believes can.
4. When life happens in the present, the mind relies on this core belief to interpret the present moment and thus brings the belief forward with its corresponding emotion.
5. If the core belief is lie-based the emotions a person will feel will correspond to this belief. Lie-based emotions include such things as; stress, worry, fear, anxiety, hopelessness, despair, etc.
6. People tend to seek ways to resolve this pain through inappropriate behavior (sin). To continually address the behavior and never attend to the lies may result in a continual cycle of defeat.
7. Theophostic Prayer seeks to identify the lie-based core beliefs the person holds and invite the Holy Spirit to replace them with His truth. When a person knows the truth in these core places he will experience peace, since peace follows truth just as pain follows a lie.
8. The mind renewal process is a life long journey.
